ABOUT ME

Originally from Farcașa, Romania, I am currently an M.S.c. student in Cybersecurity at the Polytechnic University of Catalonia (UPC). I received my B.S. in Computer Science at the UPC, where my bachelors' thesis based on Pentesting using microservices was awarded honors.

I am currently working on Avanade as a Junior Security Analyst, where I have solved many cybersecurity issues and introduced myself to the world of Security.

My goal has always been to become an Ethical Hacker, but I still have a long way to go. Therefore, I learn as much as I can to sharpen my cybersecurity skills.

EXPERIENCE

Avanade, Barcelona: *Junior Security Analyst*

july 2022-PRESENT
